

Telephone Directory
Cadillac
April, 1917

This telephone directory was created by the Michigan State Telephone Company, a unit of the Bell System of the American Telephone and Telegraph Company. It's dated April, 1917- the same month the US declared war on the Central Powers.

Sixteen communities in the company's Cadillac district are included in this 64 page booklet:

Cadillac (on page)-13
Bear Lake -22
Benzonia -Beulah -27
Buckley -30
Copemish -32
Dighton -34

Harlan -41
Honor -43
Mesick -45
Thompsonville -47
Marion -49

I put together this pdf from the directory belonging to my great-grandfather, Luther L. Finch of Arcadia, Michigan. The original's pages are an aging gray newsprint which I scanned in color and converted to black and white for good readability. The scans are in the 100-150 ppi range. I have higher quality TIF files of the directory saved. If you need such please contact me at steve@dryhillpress.com .

The Telephone Introduction

TO begin a telephone conversation, it is first necessary that both parties should properly introduce themselves.

When answering a telephone call say "Smith & Jones, Jones talking." The caller says "Brown & Robinson, Brown talking"—a complete introduction, when the identity of both parties is fully established.

"Hello, who is this?" and other similar salutations are simply a waste of time, made unnecessary by this simple form of telephone introduction.

Michigan State Telephone Company

The Right Way to Telephone

In order to get the best results when telephoning, do not mumble the number to the operator, do not be inattentive to her repetition, do not talk *at* your telephone without regard to its distance from your lips.

The right way is to give the number to the operator *clearly* and *distinctly*, to listen for her repetition of the number and *acknowledge* it, and then talk directly *into* the telephone with your lips close to the transmitter, giving your whole attention to the telephone conversation.

**Telephoning in the right way helps
make the service more efficient**
